

**Assignment 12: Digital Story Podcast**  
**Due: May 12 - burned on a data CD / DVD**

**Create a video for the web**

Create a video / narrated slideshow, using your script /storyboards from previous assignment as a guideline. You will assemble video clips or still pictures into a sequence and add sound and music to create a finished web video which tells a story. Your final video will be displayed as a link from your web-based project. The video can also be uploaded to Youtube or another video hosting site.

Video final size should be set for streaming broadband. Burn video file .mov onto a CD to turn in, OR upload your video on Youtube and turn in your movie by writing the Youtube link to your movie below.

You will place the final video for display onto your webpage in the last project assignment (#13)

**Assignment 12 : Digital Story Video Podcast**
