

# DM77/Art77/CSIS 77 Introduction to Digital Media

Spring 2009

## Assignment 13 : FINAL VERSION WEBSITE & your video linked onto your web page

**Due: week of May 19 at TBA final exam - START OF CLASS - FINALS WEEK**

**Time to turn in the final version of your website.** Your website should be complete with flash animation, functional links pages, a photo slideshow gallery, wigtges from slide.com , your movie, graphic buttons, button bars and any other bells & whistles you have added.

**putting your video onto your web page** Add the video created in assignment 12 to your web page, with a button link. The web sized video should be able to play via a web browser as part of a link from your main page. Burn your entire functional website onto a CD and turn it in, along with this grading sheet **or** submit a link to its online url.

**BE PREPARED TO PRESENT YOUR FINAL PROJECT IN FRONT OF THE CLASS ON THE DAY OF THE FINAL EXAM**

*final version of this web project is worth 25 points total.*

NAME HERE:

**Final Version of website - Due: week of May 19**

|   |              |
|---|--------------|
| Having 3 or more, well designed separate web pages with matching colors / buttons as part of your project – 5 pts           |              |

| <i>turn in this form with your name, inserted with your CD jewelcase</i>  | final grade: |

## INSTRUCTOR FEEDBACK

check one

**My entire website is on the attached CD**

or

**My entire website is posted and viewable online at:**

http:// \_\_\_\_\_  
*(if doing this option be sure to double-check that your link works!! non-working links wont receive full credit)*

### **BONUS POINTS ! extra credit: (10 points) : for posting your web project online!**

If you upload your entire website which you have built as part of this class to the web and write the link above - extra credit is available. Whether you decide to use free web hosting services or utilize your home internet (for instance Comcast provides customers with web server space), upload your website (after it has been reviewed /approved by instructor) to a web server where it can be viewed from a regular internet browser anywhere. To find out about FREE places to host your website, type FREE WEBHOSTING into google's search engine. Also consider, yahoo Geocities for a free web space. (the drawback of the free web hosting is that little ads get displayed on your website of which you have no control) .
