

# DM77/Art77/CSIS 77 Introduction to Digital Media

Spring 2009

## Assignment 5 : Printing a photo from your digital camera

Due: March 10 - end of class

Pick one image out of your group from Assignment 4b to work with. Adjust the image to your satisfaction, using contrast, levels, color balance & other tools available within Photoshop.

Print your best photo from your digital photos using the photo printer in Studio DM. Sized 8x10 inches, 300 dpi.

Lightly pencil your name on the back of the photograph, check information below, and add your name. Fold this assignment sheet around your photo, or paperclip (not staple) together with your printed photo to turn in.

### Assignment 5 : Photo Print

NAME HERE:

*This project is worth 10 points total. Late projects will not receive full credit.*

|   |   |              |
|---|---|--------------|
|   | Your printed photo is sized 8 x 10 – 2 pts                            |              |
|   | photo has been color corrected and is properly color balanced – 2 pts |              |
|   | photo is has thought given to the composition of the image– 2 pts     |              |
|   | Photo is not under or over-exposed (too bright or too dark) – 2 pts   |              |
| ✓ | Resolution has been correctly handles (image is NOT pixelated) – 2pts |              |
|   |   |              |
|   | grade scale: 8-10 = A 6-7 = B 5 = C 4=D 3 or less = F                 | final grade: |
